Blog: medium.com/@galibqurbanov

SKILLS

- Programming Languages: **C#**.
- Software Design Concepts: **Architectural Patterns** (Clean Architecture, Vertical Slice Architecture, Modular Monolith Architecture), **SOLID Principles**, **Design Patterns**, **Domain-Driven Design (DDD)**.
- Communication: **RESTful APIs**, **Messaging (RabbitMQ)**, **Real-time Communication (SignalR)**.
- Testing: **Unit Testing**, **Integration Testing**.
- Database Systems: **Relational databases (MS SQL Server, MySQL, PostgreSQL)** and **NoSQL databases (MongoDB)**.
- Containerization: **Docker**.
- Version Control: **Git**.
- Languages: **Azerbaijani** (Native), **Russian** (Intermediate), **English** (Intermediate).

WORK EXPERIENCE

CROCUSOFT | .NET Backend Developer | 05.12.2023 - Present

At **Crocusoft**, I primarily **design, develop, and maintain applications** using **C#** and **ASP.NET Core Web API**. Some of the projects I have worked on here include:

- **Crocusoft Website:** <https://crocusoft.com>
- **Kapital Bank HR Platform:** <https://crocusoft.com/en/Project/Details/hr.kapitalbank.az>
- **SANAT Art Center:** <https://crocusoft.com/en/Project/Details/sanat-art-center>

My responsibilities across these projects included:

- **Designed, developed and maintained scalable backend services** using **modern architectural patterns**.
- **Implemented and optimized data access** using **relational and NoSQL databases** to improve application performance.
- **Enhanced application responsiveness and reliability** through **caching, asynchronous processing, monitoring, logging and metrics**.
- **Containerized applications with Docker** to ensure **consistent and reliable deployments**.

CERTIFICATES

Microsoft Applied Skills: Develop an ASP.NET Core web app that consumes an API

Credential ID: **FD9A661FA59E8A71**

<https://learn.microsoft.com/en-us/users/galibqurbanov/credentials/fd9a661fa59e8a71>

EDUCATION

08.09.2014 - 13.06.2017

Industrial and Technology College under Azerbaijan State Oil and Industry University

(Associate's degree, Software Engineering for Automated Systems and Computer Technology)
